

Appreciating your sons and daughters!

Monday, 24th October, 2016 saw a group of staff and children gathering at Rufford Country Park to board a coach to Cadbury World, to celebrate this year's Sons and Daughters celebration.

Although it was a chilly morning, all arrived wrapped up warm and cosy, packed lunches in their bags and very excited in anticipation of the 'free' goodies that was ahead of them.

On arriving at the venue, we enjoyed a 3D cinema presentation, followed by some time in the play area before commencing our tour of the factory where the children received and enjoyed some chocolate goodies and a photo session, whilst learning the history of Cadbury and chocolate in England.

A quiz had been prepared for the children to find the answers during their visit; Katie was announced as the overall winner during the journey home and received a £10 voucher as her prize.

Libby aged 11 years, joined us on the trip and wrote "My time at Cadburys World was great. The people who came with us were really nice and comforting. My trip was really entertaining and educational and I really enjoyed making friends. I liked how we stayed together and listened. Everyone on the trip had something in common, therefore it wasn't awkward when talking to people, because we all had something to talk about.

Over all I think that the trip was really good and that it was a good change from the hall that we are usually in. I would like to go to different places more often. Thank you to the Fostering Recruitment Team and all the people that help out."
