**Nottinghamshire  
County Council**

Futures

Care leavers are disproportionately more likely to experience unemployment, mental health issues and homelessness. To try and combat these outcomes **Nottinghamshire County Council** launched the Care Leavers Offer, which provides additional support to help care leavers transition into independent living. **Nottinghamshire County Council** are now looking at the next stage of the offer, which includes upskilling young people whilst still in care.

**Broxtowe Youth Homelessness** have been commissioned to develop and deliver a work readiness programme to prepare young people in care for a meaningful work placement. We recognise the transferrable skills young people in care gain throughout their lives and we are passionate about applying them in the workplace.

**The Care 2 Work programme consists of three steps –**

- 1. A fun, interactive 2-day workshop designed to help young people identify a potential career path and prepare for a work placement.**
- 2. Participate in a well planned and meaningful work placement in an area of work of their choice.**
- 3. Continued support from Futures to help young people to progress on their desired career path.**

**All participants who complete training achieve a Level 1 Aim Award Qualification in Personal Presentation at Work**
